

WINTER SCAVENGER HUNT

This Activity Sheet corresponds with ECO's **Virtual Winter Scavenger Hunt presentation**. View the presentation, then go to a safe location outdoors such as a nearby park to check off what you find. Make observations about what you notice. You may sketch or draw what you see, use colors and labels, make a list, or a combination of these.

EVERGREEN PLANT STUDY

Evergreen plants are trees or shrubs that keep their leaves all year. Can you find these examples?

A conifer tree (ex: Douglas-fir, cedar, hemlock)

A broadleaf tree or shrub (ex: Oregon grape, rhododendron, madrone, evergreen huckleberry)

Use the space to sketch what you find:

DECIDUOUS TWIG STUDY

Use the space to sketch and label a twig and its parts (terminal bud, nodes, growth, leaf scar):

LICHEN STUDY

Lichen comes in many colors and can be found on the ground, on trees, or on rocks. Can you find one of each type?

Leafy

Crusty

Bushy or stringy

Scaly or bumpy

Use the space to sketch what you find:

ANIMAL TRACK STUDY

Deer

Bird

Dog

Cat

Other (sketch):
